

MOBILITY MARKET

FEBRUARY 19th

On **February 19th** from **10am-2pm**, the Tampa Downtown Market will host a special transportation event, the Mobility Market, where local agencies, businesses, and organizations will have product displays and informative exhibits focused on improving mobility through good urban design and by supporting alternative modes of transportation (electric cars, transit, bike, pedestrian, etc.).

The Mobility Market will be located on Madison Street between Franklin Street and Florida Avenue in Downtown.

For the occasion, Madison Street will be (temporarily) redesigned using Complete Street principles.

(What's a Complete Street you ask?

Check out

www.completestreets.org).

We hope you can come on down, enjoy lunch at the Tampa Downtown Market and learn about improving transportation systems in our community!

Learn more at www.sdattampa.com.

Each participating organization will have representatives on hand to answer questions and share insight into the many initiatives aimed at making the Tampa Bay Area more livable through well-designed transit and transportation systems.
